your life easier"

ROPOX ERGO TABLE

A FUNCTIONAL TABLE THAT SATISFIES YOUR EVERY NEED

Ergo Tables have a broad range of adjustment options, which allows you to adjust the table according to your needs. The variety also makes them highly suitable as tables for training, teaching, work, and play.

You can adjust the table height manually, and since the table has no cross bars, wheelchair users can easily get close access to the table.

The tiltable table top makes it easy to reach the worktop, and it also shortens the visual distance to the documents on table. This is a great benefit for weak-sighted, users with reduced arm function and people who have difficulties leaning over a table.

If required, you can use arm supports to relieve your forearms and provide a slight body support for a more balanced sitting position.

ROPOX ERGO TABLE

Max. load capacity:	100 kg (on ruler: about 8 kg)
Height:	56-90 cm
Depth:	60 cm
Width:	90 or 120 cm
